SUMMARY

UI/UX Designer and final-year Computer Science AI & ML student who pairs user research and design-systems thinking with hands-on front-end engineering. This experience spans designing end-to-end product experiences - such as dashboards, data visualizations, and AI-powered interfaces - through wireframing, prototyping, and usability testing in Figma and Penpot, then shipping them as production React/Next.js applications, with a focus on turning complex workflows into intuitive, accessible interfaces

EXPERIENCE

Front-End AI Engineering Intern (Part-Time)

FlyRank AI

📅 07/2026 - Present 📍 Remote

- Develop responsive React/Next.js interfaces for an AI-powered SEO and organic-growth platform, translating product and design specs into production-ready UI
- Collaborate with designers and AI engineers to ship feature updates on a recurring release cycle
- Improve accessibility and cross-device responsiveness across desktop and mobile breakpoints

Web Development Intern (Training Program)

Thiranex

📅 07/2026 - 07/2026 📍 Remote

- Delivered 8 responsive webpages using HTML, CSS, and JavaScript, applying component-based, cross-browser design principles

PROJECTS

FinTrac AI – AI Financial Operating System

- Designed and developed an AI-powered financial operating system focused on intuitive dashboards, trust-centered UX, and seamless user journeys.
- Improved Core Web Vitals and frontend performance through advanced rendering optimization, boosting Lighthouse Performance by over 196% (29→86).

The AdRocket – Premium SaaS Landing Experience

- Designed and developed a premium SaaS landing experience with a strong emphasis on UI/UX, motion design, accessibility, and frontend performance.
- Optimized the application to achieve a 94 Google Lighthouse Performance score while maintaining 100 Accessibility, Best Practices, and SEO, demonstrating the balance between engaging interactions and a fast, responsive user experience.

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML)

ABES Engineering College

📅 2023 - 2027

- Technical Head, Kalakrit Cultural Club — Led end-to-end creative direction, UI/UX design, event branding, and technical execution, delivering high-impact digital experiences for college-wide events.

SKILLS

Design & UX Research
